Hi Jo,

Yes, I think asking Ben to take a look at this is a good idea - - and I will definitely take a look at it tomorrow!

Have a great Thanksgiving!

Hi Laurie,

I did not get any additional information. I would like to review this and I have it on my list. It would have been more appropriate for Ecology to have provided this information for EPA review prior to going out to the Advisory Committee as I believe Ben was our reviewer for the 2012 Technical Study. Should we ask Ben to take the time to review?

On another note, wanted to let you know that I will not be participating on today's Watershed Unit call. I have an appointment.

Jo

Subject: FW: Deschutes Draft Supplemental Report - Comments Welcome

Hi Jo,

Do you know what this is – exactly? and whether or not we should be reviewing this?

Hmmmm.

Subject: Deschutes Draft Supplemental Report - Comments Welcome

Hi Everyone,

At the November 20 Deschutes TMDL Advisory Group meeting Mindy Roberts gave an overview of the supplemental report Ecology is preparing to address changes from the 2012 Technical Study. **You now have the opportunity to review and comment on the draft report.** Ecology staff will review all comments received and consider them before finalizing the document. We will let you know when the report is final and available online.

The draft report is available at **Deschutes River, Capitol Lake, and Budd Inlet TMDL: Supplemental Modeling Scenarios**. If you want to download a copy of the document, I recommend you do so before the end of the comment period because we will remove the document from the ftp site following this date. For those of you who requested a hard copy, we will mail those out before the end of this work week.

Please send your comments directly to Lydia.Wagner@ecy.wa.gov by close of business on Friday, December 12. To help us quickly identify the section of the report you're commenting on, please provide specific information such as page number, section, paragraph, table number, etc. Include your phone number or email address (*unless I already have them*) so we can follow up with you if we need any clarification on your comments. You can send all your comments in email, a Word document, or Excel spreadsheet. Use the method that works best for you. You can use the attached spreadsheet we've used for other documents if you like this format. (*Note:*

The tab on the left is the instructions for filling out the worksheet. The tab on the right is the template to use.)

Additionally, here are a couple more items we've added to the Deschutes TMDL website under Related Information:

- [Bob Wubben email introducing CLIPA's response to the 11/3/14 meeting questions](#)
- [CLIPA Response to the 11/3/14 meeting questions](#)

Thank you, in advance, for your time and comments.

Lastly, I wish for you all a wonderful Thanksgiving holiday.

Lydia
